Muhammad Hafiz Bin Mohd Idris

Johor Bahru, Malaysia | codenamehafiz@gmail.com | 017- 5420192 | portfolio-hafiz-idris.vercel.app

SUMMARY

Software developer with over 10 years of experience, specializing in writing clean and maintainable code, leveraging Artificial Intelligence (AI) in development, and prioritizing optimization of application performance. I excel in collaborating with cross-functional teams and I am a self-motivated learner with a passion for staying up to date with the latest technologies and industry trends.

EXPERIENCE

Full-Stack Engineer (Server Engineer)
Okakichi **June 2023 – February 2026, Johor Bahru, Johor**

- Designed and implemented scalable, high-performance backend systems and APIs for live game services using **C# / .NET** and **MongoDB**.
- Developed internal administrative and analytics dashboards using **Next.js** to provide real-time operational insights and management.
- Maintained **CI/CD pipelines** using **Jenkins** to enable faster deployment cycles across **Azure** and **AWS** environments.
- Created custom automation scripts and utilities to streamline internal workflows and reduce manual tasks.
- Collaborated with game designers and client engineers to ensure features met performance and gameplay targets.

Front-End Developer
Cybersolution Technologies **December 2018 – May 2023, Johor Bahru, Johor**

- Served as the primary resource for **ReactJS** development and front-end architecture within the organization.
- Executed front-end development for government web applications, delivering complex features across multiple project phases.
- Implemented ad-hoc backend modifications in **Java** to fix, modify, or create APIs.
- Developed working prototypes to validate requirements and user flows before initiating the full-scale development.
- Involved in the full Software Development Life Cycle process, including User Acceptance and internal coordination, to meet user requirements.

Web Developer
GarGeon **May 2018 – November 2018, Johor Bahru, Johor**

- Contributed to the core system architecture for the company's web and mobile products.
- Developed full-stack web applications using **CodeIgniter (PHP)** and mobile applications via the **Ionic framework** with **MySQL**.
- Directly collaborated with the founders and CEO ensuring that the project aligned with business goals and user needs.

Programmer
Zanko **September 2016 – February 2018, Johor Bahru, Johor**

- Designed application UIs and produced interactive prototypes to gather and refine user requirements.
- Developed backend controllers and optimized **SQL** queries using **CodeIgniter (PHP)** to support data-driven features.

Front-End Web Developer
Misa Travel **November 2015 – August 2016, Johor Bahru, Johor**

- Contributed to the development of the "Kiasu Perks" an **Ionic framework** mobile application and its associated landing pages.
- Designed and implemented front-end interfaces for an administrator dashboard, with backend processes developed in **PHP**.

EDUCATIONS AND CERTIFICATES

Diploma in Information Technology
Kolej Poly-Tech MARA Batu Pahat • 2015 • 3.62 CGPA

Malaysian Certificate of Education (SPM)
SMK Bandar Baru UDA • 2011

CKA: Certified Kubernetes Administrator
The Linux Foundation • 2025

Certified DevOps Practitioner
CCSD Council • 2024

Certificate In Artificial Intelligence (AI)
MBOT - Malaysia Board of Technologists • 2026

SKILLS

Backend & Databases: **C# , .NET , Java , PHP (CodeIgniter) , MongoDB , SQL (MySQL)**
Frontend: **Next.js , ReactJS , AngularJS , TypeScript , JavaScript , HTML/CSS , Bootstrap**
Cloud & DevOps: **Kubernetes (CKA) , Jenkins , AWS , Azure , CI/CD Pipelines , Git**
Design & Tools: **Adobe Photoshop , Adobe Illustrator , Figma , Ionic**
Industry Knowledge**: SDLC Management , Performance Optimization , Scalable API Design , Interactive Prototyping , AI-Assisted Development**
